Assistant Professor Position in Marine Engineering

Webb Institute invites applications for an initial two-year full-time faculty position in Marine Engineering beginning in August 2015. The appointment is anticipated to be at the Assistant Professor level, although more senior individuals are encouraged to apply. A Master’s degree in an engineering discipline is required, and a PhD is preferred. Experience in the marine field is a plus.

Initial teaching duties include a one-semester freshman course in Chemistry with laboratory, a one-semester freshman course in Materials Science with laboratory, and a one-semester upper-level course in thermal engineering science. The opportunity exists to develop upper-level elective courses, and the successful candidate will be expected to supervise student research (all Webb seniors complete a thesis as a requirement for graduation). Assistance in developing external sources of funding and consulting opportunities is available.

Located on Long Island Sound in Glen Cove, NY, Webb Institute is a unique, top-ranked undergraduate institution offering one academic option, a double major in Naval Architecture and Marine Engineering. Webb is the only full-tuition scholarship private undergraduate program of its kind in the country.

Interested candidates should forward a cover letter, resume, statement of teaching philosophy, proposed areas of research, and the names of three references to:

Prof. Jacques B. Hadler, Search Committee Chair
Webb Institute
298 Crescent Beach Road
Glen Cove, NY 11542

or electronically to jwilson@webb.edu. Applications will be accepted until the position is filled.

Reference “Faculty Position” in the subject line of any email. Employment is contingent upon successful completion of a background check (Criminal, Education, and Employment Verification).

Webb Institute is an Affirmative Action, Equal Opportunity Employer.
