

MEMS Rotary Internal Combustion Engine Media Appearances

The MEMS RICE project has been featured in numerous journals, newspapers, and magazines and on television and radio in the United States and abroad. The highlights include appearances in the USA Today, Scientific American, Technology Research News, and cover stories with Forefront magazine and the East Bay Business Times. Television stories about the engine have run on local affiliates of FOX and ABC. The following list details the media exposure of the MEMS RICE project.

Domestic Magazines

- Scientific American
- Forefront Magazine (cover story)
- Technology Research News
- Technology Review Magazine
- Popular Science
- Odyssey Magazine
- Design Fax
- California Monthly (upcoming)

Television Appearances

- ABC 7 News San Francisco
- FOX 2 News San Francisco
- TechTV (upcoming)
- History Channel (upcoming)

Domestic Newspapers

- East Bay Business Times (cover story)
- USA Today
- Berkeley Daily Planet
- Detroit Free Press

Radio Appearances

- C-NET Radio

Foreign Magazines & Newspapers

- Focus magazine (Germany)
- Ny Teknik (Sweden)
- Financieel Economisch Magazine (Dutch)
- Businessam (England)
- P. M.-magazin (Germany)
- Scientific American (Japan ed.)
- Electronique International Hebdo (France)

Internet Articles

- E4 Engineering.com
- Beyond 2000.com
- Nanotech Alert

Invited Talks

- 29th International Symposium on Combustion
- Eastern States Section of the Combustion Institute

Conference Presentations

- 35th National Heat Transfer Conference
- ASME 2001 International Mechanical Engineering Conference and Exposition
