FACULTY POSITIONS IN MECHANICAL ENGINEERING

The School of Engineering at San Francisco State University seeks to fill two positions for tenure-track Assistant or Associate Professors in Mechanical Engineering, beginning August 2018. A Ph.D. or equivalent degree in Mechanical Engineering or a closely related field is required. Our primary needs are for faculty in the areas of mechatronics and fluid mechanics. However, candidates in all Mechanical Engineering fields will also be considered.

Salary is commensurate with qualifications. A detailed position description is available at http://engineering.sfsu.edu/. SF State serves a diverse student body with a mission to promote scholarship, diversity, instructional excellence, and intellectual accomplishment. Our goal is to attract a world-class and diverse faculty committed to building a multicultural educational environment. Faculty are expected to be effective teachers, demonstrate professional achievement and growth through research, publications and/or creative activities, and engage in service to the campus and community.

Review of applications will begin on November 15, 2017 and will continue until the position is filled. Please submit a letter of interest, CV, statements for research plan and teaching philosophy, and the names and contact information for no fewer than three references via https://academicjobsonline.org/ajo/jobs/9774. If needed, letters of recommendation will be requested at a later date.
