

Safety Training

The purpose of this assignment is to make sure you have the proper safety training to work inside the Linlab's facilities (1113 Etcheverry Hall). You will have to complete 4 virtual trainings on your own, in addition to the in-person Chemical Hygiene Training, which was completed in the first lecture:

- a) EHS 101: Lab Safety Fundamentals
- b) EHS 105: Hazardous Waste Program (HWP)
- c) EHS 106: Spill Response
- d) LHAT: Laboratory Hazard Assessment
- e) Chemical Hygiene Training (finished in first lecture)

If you were not at the first lecture, email kao@berkeley.edu to schedule the in-person training. **The due date for completing trainings a-d is January 25, 2018 at 11:59 PM.** See the below guidelines to ensure that your training is marked as completed.

Trainings a-c

1. Access the Linlab roster: <https://jwas.ehs.berkeley.edu/lab/roster/list>. For the purposes of this class, you will all become temporary members on our roster, so that your safety training is documented with the campus-wide system. **This roster is how we will assess who has completed the training a-c.**
 - a. If you were at the first lecture and wrote down your email, you should have access to this list. If you do not have access or missed the first lecture, email kao@berkeley.edu.
 - b. This list allows you to see whether you've taken Safety Fundamentals (EHS 101), Hazardous Waste Program (EHS 105), and Spill Response (EHS 106).
2. To take EHS 101, 105, or 106, hover over the training titles in the first row. A small yellow box will appear with a hyperlink to the training. *For each training, be sure to take a screenshot of the completion*, in case you need it.
 - a. When you complete the training, go back to roster and check that the entry under your name has been updated. Sometimes, this can take up to a day or two to update on the system.
 - b. If after a few days, any one of the trainings is not marked as completed, email kao@berkeley.edu with the screenshot you took at the end of the training. This still must be done before the due date, so be sure to start this assignment early!

Training d

3. To take the LHAT, go to <https://ehs.ucop.edu/lhat/secure/>. When finished, email kao@berkeley.edu a PDF of your PPE voucher. **The PDF of your PPE voucher is how we will assess who has completed training d.**
 - a. Complete the training and hazard certification. When you are done, you should have access to a PPE voucher.
 - b. You may now use the PPE voucher to get your own lab coat and safety goggles. This is highly recommended. To schedule your PPE appointment and more info on how to do it, follow the directions at <https://ehs.berkeley.edu/ppe/how-do-i-get-my-lab-coat-safety-glasses-or-splash-goggles>. However, if you choose not to, the Linlab has extra coats and goggles that you can use.
