The Berkeley MEng in Mechanical Engineering

Combining technical skills with business leadership

Gain competitive edge by:

- Applying your academic background to mechanical engineering challenges
- Solving business and technical challenges through a capstone project
- Earning an MEng degree in 9 months
- Interacting with world-class faculty and industry mentors
- Accessing specialized career services and Berkeley’s large alumni network

Recent graduates have been hired at:
Apple, Applied Materials, Delphi Labs Silicon Valley, Energy Solutions, General Motors, Haxi Labs, Intuitive Surgical, Lockheed Martin, Tesla & many more
